New Tools Of The Trade

Portable Flash Power >>

The **Profoto Pro-B4 1000 Air** delivers flash durations down to a short 1/25,000 of a second. At lower power settings, it fires up to 30 flashes per second, while the longest wait time at full power is less than a second. Featuring two independent outlets with individual controls and displays, the Pro-B4 makes it easy to take full advantage of all its features. The unit's energy setting can be adjusted quickly with precise control in 1/10 *f*-stop increments. The display can be set to show the output in *f*-stops or watt seconds, and information about the flash duration on each head is easily accessible. The battery fully recharges in less than 45 minutes and can be recharged while in use. Estimated Street Price: TBA. **Contact:** Profoto, (914) 347-3300, www.profotousa.com.

<< WD My Passport Edge

Back up your files when out on an assignment using the **My Passport Edge** from **Western Digital**. With 500 GB of capacity and a USB 3.0 interface that delivers fast read and write speeds, the drive allows you to quickly manage, share and work with your files from any location. The sleek design makes fitting it into your bag easy. Plus, there are additional security features for safeguarding your content such as password protection and hardware encryption that prevents unauthorized use or access. The all-aluminum exterior protects the drive from scrapes and bumps. Estimated Street Price: $109 (Edge); $119 (Edge for Mac). **Contact:** Western Digital, (949) 672-7000, www.wd.com.
